INDEX

AGROTIS, thoracic movements and potentials in flight of, 95.
Air density, stroke amplitude as a function of, in Drosophila, 15.
Alga (Ascophyllum), uptake of radioactive iodine by, 188.
Allium cepa, action of saponin on root growth of, 1.
Allium cepa, electron microscope studies of mitosis in, 107.
Amblystoma mexicanum, analysis of pigment suppression in, 127.
Amblystoma punctatum, analysis of pigment suppression in, 127.
Amblystoma tigrinum, analysis of pigment suppression in, 127.
Anaerobic metabolism of fresh water snails, 199.
Arctonoë, studies of physiology of commensalism in, 71.
Ascophyllum, uptake of radioactive iodine by, 188.
Axolotl, analysis of pigment supression in, 127.

BAILY, NORMAN A. *See* SALLY KELLY, 188.
Bass, studies of digestive tract and digestive enzymes of, 244.
BODINE, JOSEPH HALL, AND KIAO-HUNG LU. Endogenous oxygen uptake and specificity of embryonic intracellular constituents, 153.
Brachyuran crab, serological analysis of systematic position of a, 44.
BUTROS, JOSEPH. The action of saponin and its non-hemolytic modification on growth, 1.

CALLIPHORA, thoracic movements and potentials in flight of, 95.
Cape Cod, marine sand-dwelling ciliates of, 59.
Carassius auratus, studies of digestive tract and digestive enzymes of, 244.
CHADWICK, LEIGH E. Stroke amplitude as a function of air density in the flight of Drosophila, 15.
Chaetognatha of Florida west coast, 206.
CHAMBERS, ROBERT. *See* MARIA A. RUDZINSKA, 49.
Chromatophores in salamanders, 127.
Chromatophorotropic hormones in Sesarma, 28.
Ciliates, marine sand-dwelling, 59.
Colchicinized mitotic figures in onion root tip, 107.
Commensalism, studies in the physiology of, II., 71.
Contractile vacuole, activity of, in Tokophrya infusionum, 49.
COOPERSTEIN, S. J. *See* ARNOLD LAZAROW, 191.
COOPERSTEIN, S. J., AND ARNOLD LAZAROW. Cytochrome oxidase and succinic dehydrogenase content of squid (Loligo pealii) nervous tissue, 159.
Cytochrome oxidase in squid nervous tissue, 159.
Cytochrome oxidase in toadfish islet tissue, 191.
Cytotaxonomy of mantids, 178.

DAVENPORT, DEMOREST, AND JOHN F. HICKOK. Studies in the physiology of commensalism. II. The polynoid genera, Arctonoë and Halosydna, 71.
DNA content of mantid nuclei, 178.
Diatom (H. amphioxys), tidal rhythm in, 173.
Diptera, thoracic movements and potentials in flight of, 95.
DOLLEY, WILLIAM L., JR., AND JOHN D. WHITE. The effect of illuminance on the reversal temperature in the drone fly, Eristalis tenax, 84.
DOLLEY, WILLIAM L., JR., AND JOHN D. WHITE. The effect of illuminance on the lethal temperature in the drone fly, Eristalis tenax, 90.
Drone fly, effect of illuminance on lethal temperature in, 90.
Drone fly, effect of illuminance on reversal temperature in, 84.
Drosophila virilis, flight of, 15.

ELECTRON microscope studies on mitosis in onion root tip, 107.
ELLIOTT, ALFRED M., AND ROBERT L. HUNTER. Phosphatase activity in Tetrahymena, 165.
ENAMI, MASASHI. The sources and activities of two chromatophorotropic hormones in crabs of the genus Sesarma. I. Experimental analyses, 28.

DNA content of mantid nuclei, 178.
Diatom (H. amphioxys), tidal rhythm in, 173.
Diptera, thoracic movements and potentials in flight of, 95.
DOLLEY, WILLIAM L., JR., AND JOHN D. WHITE. The effect of illuminance on the reversal temperature in the drone fly, Eristalis tenax, 84.
DOLLEY, WILLIAM L., JR., AND JOHN D. WHITE. The effect of illuminance on the lethal temperature in the drone fly, Eristalis tenax, 90.
Drone fly, effect of illuminance on lethal temperature in, 90.
Drone fly, effect of illuminance on reversal temperature in, 84.
Drosophila virilis, flight of, 15.

ELECTRON microscope studies on mitosis in onion root tip, 107.
ELLIOTT, ALFRED M., AND ROBERT L. HUNTER. Phosphatase activity in Tetrahymena, 165.
ENAMI, MASASHI. The sources and activities of two chromatophorotropic hormones in crabs of the genus Sesarma. I. Experimental analyses, 28.

Enzymes (digestive) in goldfish and bass, 244.
Eristalis tenax, effect of illuminance on lethal temperature in, 90.
Eristalis tenax, effect of illuminance on reversal temperature in, 84.
Eristalis, thoracic movements and potentials in flight of, 95.

FAURÉ-FREMIET, E. The marine sand-dwelling ciliates of Cape Cod, 59.
FAURÉ-FREMIET, E. The tidal rhythm of the diatom Hantzschia amphioxys, 173.
Fish, studies on isolated islet tissue of, I., 191.
Flight, movements of thorax during, 95.
Flight, potential changes in thoracic movements during, 95.

GERYON quinquedens, serological analysis of systematic position of, 44.
Goldfish, studies of digestive tract and digestive enzymes of, 244.
Grafting, homoplastic, in Stentor, 116.
Growth, modification of saponin on, 1.

HALOSYDNA, studies in physiology of commensalism in, 71.
Hantzschia amphioxys, tidal rhythm in, 173.
HICKOK, JOHN F. *See* DEMOREST DAVENPORT, 71.
Homoplastic grafting in Stentor, 116.
Hormones, chromatophorotropic in Sesarma, 28.
House flies, respiratory metabolism during metamorphosis of, 299.
HUGHES-SCHRADER, SALLY. The desoxyribonucleic acid content of the nucleus as a cytotaxonomic character in mantids (Orthoptera: Mantoidea), 178.
HUNTER, ROBERT L. *See* ALFRED M. ELLIOTT. 165.
Hymenoptera, thoracic movements and potentials in flight of, 95.

ILLUMINANCE, effect of on lethal temperature in Eristalis tenax, 90.
Illuminance, effect of on reversal temperature in Eristalis tenax, 84.
Insects, movements of thorax and potential changes in thoracic muscles of, during flight, 95.
Iodine, radioactive, uptake of by Ascophyllum, 188.
Islet tissue in fish, studies on. I., 191.

KELLY, SALLY, AND NORMAN A. BAILY. The uptake of radioactive iodine by Ascophyllum, 188.

LAZAROW, ARNOLD. *See* S. J. COOPERSTEIN, 159.
LAZAROW, ARNOLD, AND S. J. COOPERSTEIN. Studies on the isolated islet tissue of fish. I. The cytochrome oxidase and succinic dehydrogenase contents of normal toadfish (Opsanus tau), 191.
LEHMAN, HARVEY EUGENE. An analysis of the dynamic factors responsible for the phenomenon of pigment suppression in salamander larvae, 127.
LEONE, CHARLES A. A serological analysis of the systematic relationship of the brachyuran crab, Geryon quinquedens, 44.
Lethal temperature, effect of illuminance on, in Eristalis, 90.
Loligo pealii, cytochrome oxidase and succinic dehydrogenase content in nervous tissue of, 159.
Lucilia, thoracic movements and potentials in flight of, 95.
LU, KIAO-HUNG. *See* JOSEPH HALL BODINE, 153.

MANTIDS, DNA content of nucleus as cytotaxonomic character in, 178.
Marine sand-dwelling ciliates, 59.
MEHLMAN, BENJAMIN, AND THEODOR VON BRAND. Further studies on the anaerobic metabolism of some fresh water snails, 199.
Melanoplus, endogenous oxygen uptake in, 153.
Metabolism, anaerobic, of fresh water snails, 199.
Metamorphosis, respiratory metabolism during, of normal and DDT-resistant house flies, 229.
Micropterus salmoides, studies of digestive tract and digestive enzymes of, 244.
Mitosis, electron microscope studies on, in onion root tip, 107.
Musca domestica, respiratory metabolism during metamorphosis of normal and DDT-resistant, 229.

NUCLEUS, DNA content of, as cytotaxonomic character in mantids, 178.

ONION root tip, action of saponins on, 1.
Onion root tip, electron microscope studies of mitosis in, 107.
Opsanus tau, cytochrome oxidase and succinic dehydrogenase in isolated islet tissue of, 191.
Orthoptera, DNA content of nucleus as cytotaxonomic character in, 178.
Oxygen uptake, in Melanoplus, 153.

PERIPLANETA, thoracic movements and potentials in flight of, 95.
Phosphatase activity in Tetrahymena, 165.
Physiology of commensalism, studies in. II., 71.
PIERCE, E. LOWE. The Chaetognatha of the west coast of Florida, 206.
Pigment suppression in salamander larvae, analysis of, 127.
Polynoid worms, commensalism in, 71.
Potential changes in insect thoracic muscles during flight, 95.

RADIOACTIVE iodine, uptake of, by Ascophyllum, 188.
Respiratory metabolism during metamorphosis of normal and DDT-resistant house flies, 229.
Reversal temperature, effect of illuminance on, in Eristalis tenax, 84.
ROEDER, KENNETH D. Movements of the thorax and potential changes in the thoracic muscles of insects during flight, 95.
RUDZINSKA, MARIA A., AND ROBERT CHAMBERS. The activity of the contractile vacuole in a suctorian (Tokophrya infusionum), 49.

SACKTOR, BERTRAM. Some aspects of respiratory metabolism during metamorphosis of normal and DDT-resistant house flies, Musca domestica L., 229.
Salamander larvae, analysis of pigment suppression in, 127.
Saponin, action of, 1.
SARBAHI, DAYA SHANKAR. Studies of the digestive tracts and the digestive enzymes of the goldfish, Carassius auratus (Linnaeus) and the largemouth black bass, Micropterus salmoides (Lacépède), 244.
SEDAR, ALBERT W., AND DONALD F. WILSON. Electron microscope studies on the normal and colchicinized mitotic figures of the onion root tip (Allium cepa), 107.
Serological analysis of systematic position of Geryon quinquedens, 44.
Sesarma, chromatophorotropic hormones in, 28.
Snails (fresh water), anaerobic metabolism of, 199.
Squid nervous tissue, cytochrome oxidase and succinic dehydrogenase content of, 159.
Stentor coeruleus, homoplastic grafting in, 116.
Stroke amplitude as a function of air density in flight of Drosophila, 15.
Studies in commensalism. II., 71.
Succinic dehydrogenase in squid nervous tissue, 159.
Succinic dehydrogenase in toadfish islet tissue, 191.
Suctorian, activity of contractile vacuole in (Tokophrya infusionum), 49.
Systematic relationship of G. quinquedens, serological analysis of, 44.

TADPOLES, activity of "saponin cholesteride" on, 1.
Tetrahymena, phosphatase activity in, 165.
Thorax, movements of in insect flight, 95.
Tidal rhythm of diatom, H. amphioxys, 173.
Toadfish, cytochrome oxidase and succinic dehydrogenase in isolated islet tissue of, 191.
Tokophrya infusionum, activity of contractile vacuole in, 49.
Triturus rivularis, analysis of pigment suppression in, 127.
Triturus torosus, analysis of pigment suppression in, 127.

UPTAKE of radioactive iodine by Ascophyllum, 188.

VON BRAND, THEODOR. *See* BENJAMIN MEHLMAN, 199.
